| 22 | Laura Travis | TORN |
| 23 | Ana Flores | THE HEART OF NATURE |

Points of Interest: The Sculpture Trail occupies about three upland acres of an otherwise wet and forested 22.2 acres of protected land. The flat and easy to walk trail takes the visitor by twenty three installations created from a variety of materials.

Thanks to Troy West and Claudia Flynn for their inspiration and hard work on this project.

Trailhead: From Main Street in Wakefield at the bike path crossing proceed southwest on Main Street for 1.4 miles to Route 1 South. Stay on Route 1 south for 5.8 miles, then exit left to change direction on Route 1. Take the first exit on right onto Post Road and proceed 0.3 mile.

Make a left onto Green Hill Beach Road and continue 0.75 mile. Park only on the left (east) at the side of the road near a break in the stone wall which is the entrance to the Sculpture Trail.
